Summary

- Overall 11 years of experience in IT industry as a Java/J2EE developer in the development of Web applications using J2EE and Core Java related technologies
 - Experience in Full software development life cycle implementation including Business interaction, Requirement Analysis, Software Architecture, Design, Development, Testing and Documentation phases and Web based Enterprise Applications using Java/J2EE on Windows, Linux and Mac platforms
 - Expertise in designing and developing multi-tier enterprise level web based applications using J2EE technologies like Servlets, JSP, Struts 2.0, Hibernate 3.0, Spring 3.0/Boot, JSF 2.0, Rest/SOAP Webservices, XML, Java Multi-threading
 - Experienced working in Agile methodologies like scrum and Kanban frameworks
 - Strong experience in front end designing using Play framework, AJAX, JSTL, Struts Tag Libraries, XHTML/HTML5, JavaScript, JQuery, CSS, Bootstrap
 - Proficiency with Web Sphere Application Server (WAS) and Apache Tomcat Web Server
 - Experienced working with DevOps tool Jenkins
 - Experience working with Databases such as MySQL and DB2
 - Proficient in using various IDEs like Eclipse, RAD, RSA, IntelliJ
 - Experience working with version control tools like Git, BitBucket, SVN, Clear Case and Team Foundation Server
 - Experience with JUnit, Mockito frameworks in performing testing and determining the application functionality
-

Skills

- **Languages:** Java 8, Java 2 Enterprise Edition (J2EE), Objective-C
 - **Web Technologies:** JSP, Servlet, JDBC, HTML/HTML5, CSS, xml, Webservices
 - **Script languages:** JavaScript, AJAX, JQuery, JSON, Angular JS 2
 - **Framework:** Struts 1.x/2.0, Spring 3.x/Boot, Hibernate 3.0, JSF 2.0, Cocoa
 - **Database:** MySQL, postgresSQL, DB2
 - **Server:** Apache tomcat 6.x, JBoss, IBM WebSphere
 - **IDE:** Eclipse, IntelliJ Idea, NetBeans, IBM RAD, IBM RSA
 - **Version control tools:** IBM Rational clear case, Tortoise SVN, Microsoft VSS
 - **Graphics tools:** Adobe Photoshop
-

Education

Bachelors of Computer Engineering

2003-2007

Rajkot, Gujarat, India

Certification

Japanese Language Proficiency Test - level 3 cleared with 66%

2009

Experience

Primervoto/Solactive Gmbh
Senior Java Developer
Berlin - Germany

June 2018 - Present

- Involvement with Business operations team to analyze and plan the technical road maps to develop the upcoming modules
- Maintain and keep track record of test systems before any production build release
- Involved in development process of business requirements

ZSL Inc
Programmer analyst
New Jersey, New York – USA

Apr 2013 - March 2018

Developing application module in JAVA

- Provided my consulting services of development to different clients and projects to maintain and create new modules based on business enhancements
- Guide and help other team members to solve their technical issues
- Involved in various phases of SDLC from technical design to testing of applications

IBM India Pvt Ltd
Technical Lead
Pune – India

Jun 2011 - Mar 2013

- Managed team of 3 junior developers by guided them for the complete application knowledge and provided solutions for the technical issues
- Involved in presentation, demonstrate and explain the developed modules to clients and rest of the team
- Developed enhancement of existing insight web application using the technologies like Core Java, JSP, Servlet and XML, Ajax, Websphere, JQuery

Patni Computer System
Senior Software Engineer
Mumbai – India

Oct 2010 - Apr 2011

- Involved in development and maintenance of web interface portal
- Development with JSP, JavaScript, Actionscript and J2EE technologies like hibernate, Servlets and Struts
- Created stored procedures, functions and SQL for the necessary business logic
- Worked with multithreading in synchronized environment

Unikaihatsu Software Pvt. Ltd.
Software Engineer
Mumbai - India
Morioka, Tokyo – Japan

Feb 2007 - Oct 2010

- Involved in several phases of the project including requirements analysis, application design, technical design, development, testing & debugging, implementation and documentation
- Provided solutions for better user interface and designed the necessary layers in adobe Photoshop 7.0
- Developed the code in objective-C language with COCOA framework of iPhone software development kit
- Written java web service in SOAP for needed data transfer from client's server to the end user
- Designed full prototype for the application and demonstrate to the client
- Developed application for English and Japanese languages
